

Gladius Urban Farm Africa

Virtual Farming and Farmer Training Services

COMPANY PROFILE

Urban farming made easy

In 2014, Business Gladius Africa (BGA) was born from a need to see that the average business owner is positioned rightly for success in the large market. Over the years, Business Gladius Africa has worked as a manufacturer's representative and marketing service provider to boost numerous company products and services so that they can meet the ever-growing market demands.

Eleven years later, Business Gladius Africa has garnered success working with Small and Mid-sized Enterprises (SMEs) and has expanded efforts into empowering Nigerians in the agribusiness sector through a subsidiary company, Gladius Urban Farm Africa, aka GUDFAMA.

What is GUDFAMA?

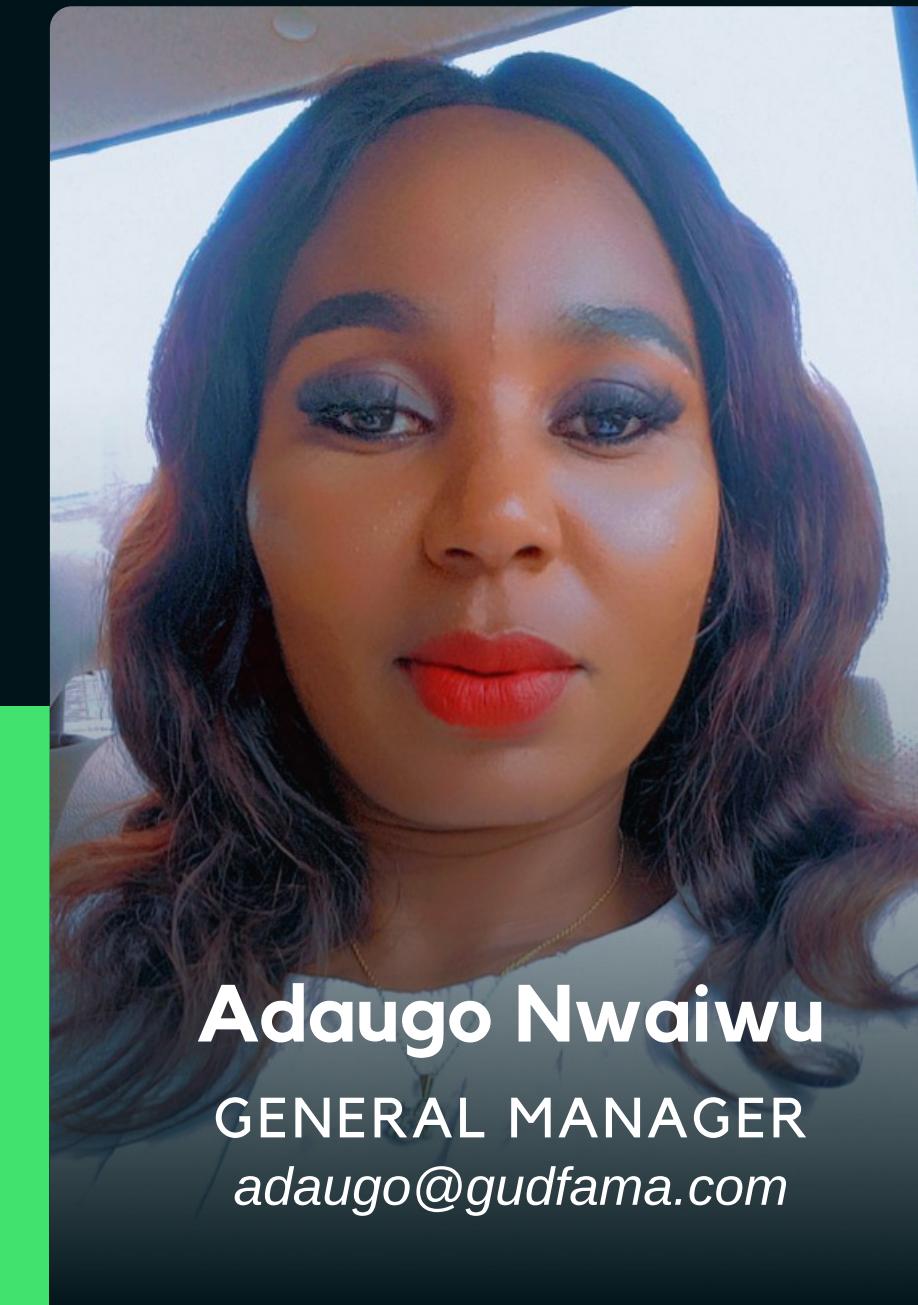

GUDFAMA is a subsidiary of Business Gladius Africa (BGA), created to solve the food crisis in Nigeria and Africa caused by the explosive rural-urban migration.

As a virtual farming and training service provider, our mission is to empower our clients through agriculture

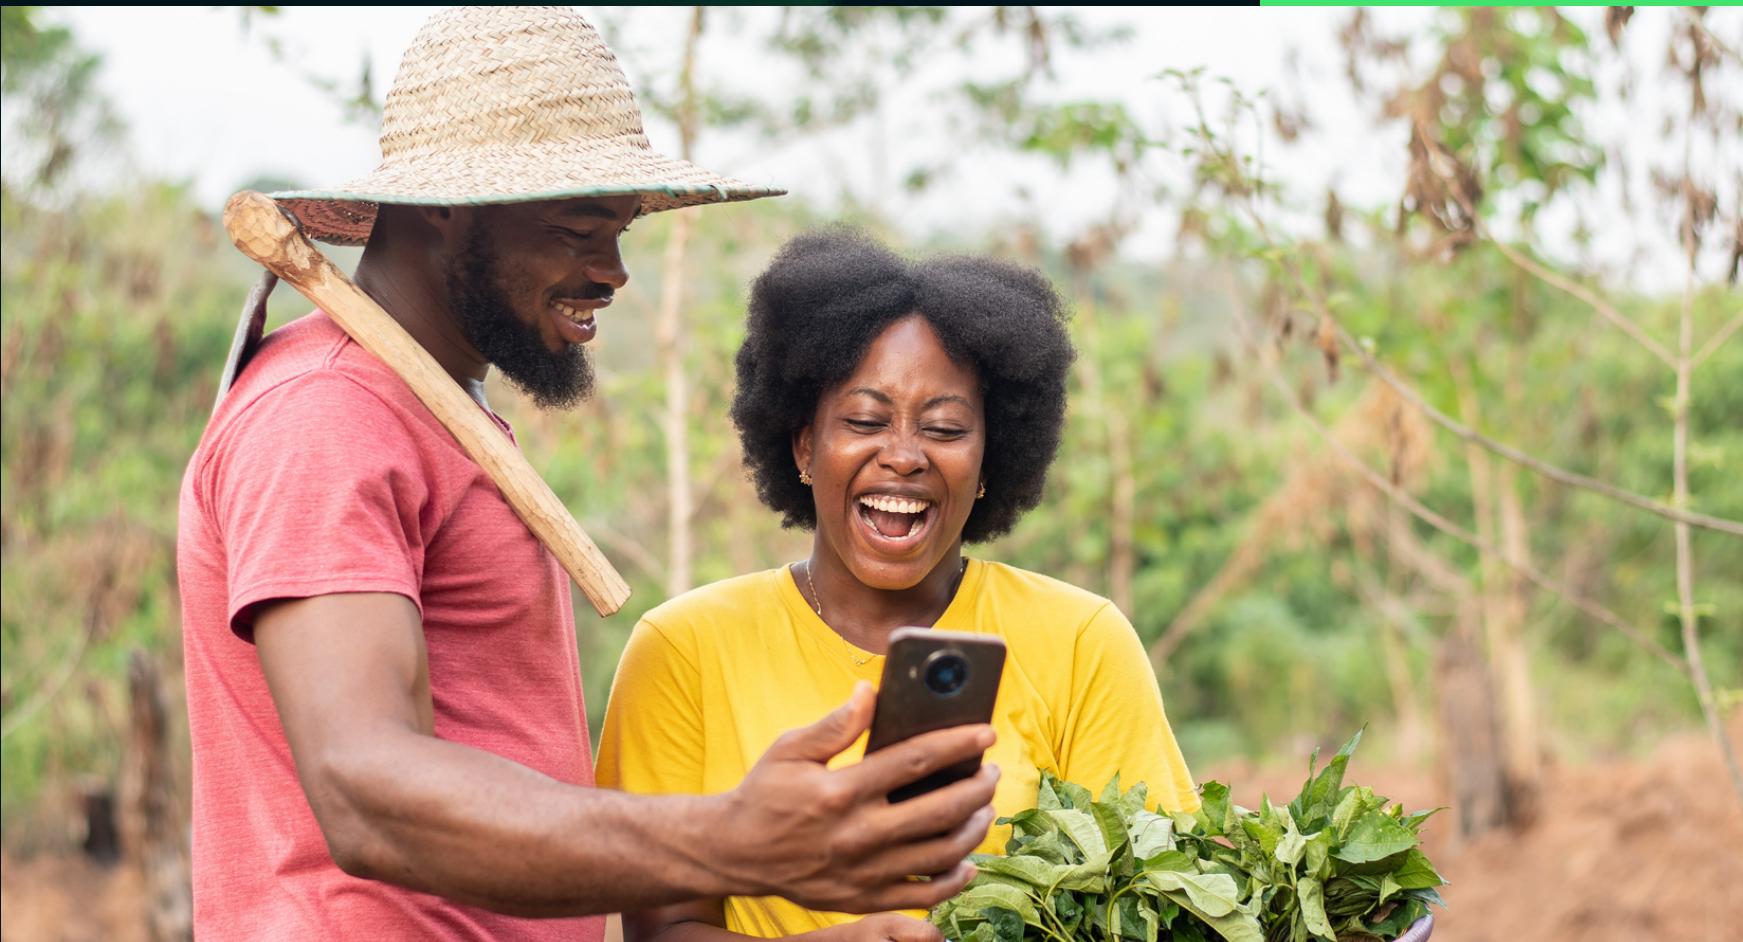

Enabling seamless agribusiness processes

Provide exceptional services that enable agribusiness thrive while providing timely Return on Investment

SERVICES

Our services

We provide opportunities for individuals to farm virtually and learn from anywhere worldwide. Through the GudFama Assistance Program, the GudFama Ajuju Program and the GudFama Community.

Assistance Program

Own from 500 fish, ROI in 4 months
Individuals aged 25 and above can subscribe to this program in one or two instalments.

Ajuju Program

Daily, weekly or monthly contribution program where users can farm, learn and earn extra money at the end of 4 months.

Gudfama Community

Active community of over 100 hands-on and virtual farmers, consultants, experts and agribusiness investors.

Our Product

Gudfama Catfish are carefully farmed from fingerlings to table size in elevated ponds with fresh water and organically grown feed.

Duration
4 months

Farm Conditions

- Concrete fish ponds
- Fresh water.
- Organic feeds

End Product

Fresh and smoked fish

INCLUDED

What's included

Chat and messaging

We keep an active WhatsApp and social media channels open for enquiries and updates.

Documentation and Legal

Subscribers fill bio-data and legal forms for documentation and 4 month contract authentication.

Fast Payment Process

Return on Investment (ROI) is remitted exactly 4 months after the farming cycle ends.

Protected Investment

Gudfama bears the burden in cases where there is fish mortality.
